National Republican Nominations.

FOR PRESIDENT

WILLIAM L DAYTON,

OF NEW JERSEY.

FOR ELECTORS

NOAH SMITH Jr of Calais,
SIDNEY PERHAM of Wood ck
KNOTT CROCKETT of Rockland
MOSES H PIKE of Skowhegan
JAMES MOULTON of Buxton
EDWARD SWAN of Gardiner
AARON P EMERSON of Orland
ISAAC GROSS of Turner

Many of the Republicans think their party improper to be successful in the state election and consequently do not vote. That may be taken by those only to look back to the election in this State in 1854, when the Democrats were defeated by a majority of the majority against the 20 Buchanan was upwards of 7000 Now a majority of more than 26,000 votes —*Michigan Union*

The Buchanan papers are hard put to it for means of consolation and encouragement when they attempt to draw them from such figures as the following What must the Democratic party of Freedom have been so badly pulverizing in numbers every succeeding election Massachusetts *Democratic majority* in 1851 was 7,000 votes In 1854 the majority against the 20 Buchanan was upwards of 70 000 Now a majority of more than 26,000 votes —*Michigan Union*

The Buchanan papers are hard put to it for means of consolation and encouragement when they attempt to draw them from such figures as the following What must the Democratic party of Freedom have been so badly pulverizing in numbers every succeeding election Massachusetts *Democratic majority* in 1851 was 7,000 votes In 1854 the majority against the 20 Buchanan was upwards of 70 000 Now a majority of more than 26,000 votes —*Michigan Union*

The returns of the Union that is not published yet foot up about 1850 thousand votes which is not to be a gross falsity and the statement that Fremont refuses to the Republican of 20 000 votes between 18 and 19 hundred is ridiculous The Republicans of Illinois alone cast more than 100,000 votes and their vote in that State will not be short of 150,000 votes

The statement that the Free Will Baptist denomination can throw nearly one-half the whole vote of this State, is to show how deeply concerned the writer is with matters in Maine There is no one religious denomination among us that can throw 20,000 votes in the State, nor even 10,000

THE ELECTIONS On Tuesday the 14th inst elections will be held in the States of Pennsylvania, Ohio and Indiana,

In each of these states members of Congress are to be elected; in Pennsylvania twenty five, in Ohio twenty one, and Indiana eleven; making fifty seven in all

In Pennsylvania a canal commissioner, and surveyor are to be chosen by popular vote — Two tickets are in the field,—a union ticket of Republicans and Americans, and a democratic ticket There are many thousands of foreign voters who will vote for Fremont in November, but will not vote the Union ticket in October A State Legislature will also be chosen, which will have to select a United States Senator in the place of Hon Richard Brodhead, whose term expires in March, 1857

In Ohio Judges of the Supreme Court, canal commissioner, school commissioner, and public works have to be chosen The three State tickets mentioned—democratic, American and Republican

In Indiana a governor and a full ticket of State officers are to be chosen

The Buffalo Courier says that Fremont has no chance in the State of New York The same is probably true also—but previous to the Maine election.

The truth is, the Fremont excitement is dying out in this State, and the nomination of Hannibal Hamlin is now found to be a mistake The Republicans regret their mistake but all too late.

The difference now on the two sides is that the Tribune ought to have known something about Maine—but might honestly don't Right under its own nose in the city of Bath, it considered too of Mr Patten, the Straight Whig candidate for Governor, gained 538 votes over the Republican vote of last year and so through the State The Tribune can't know New York is not worth much

They are sanguine up Mammoth Fillmore Men in Baltimore, the latest sum being about 40 feet long This is a very proper method of carrying on a campaign—the capital of party lying always in the wind The probability now is that in the 4th of November the people will knock Fillmore (as well as Buchanan) higher than all the kites

CAN'T ABSTAIN FOR LONG! The Machias Union, in October the paper, wants to know Who are the Democratic candidates for Electors in the 2d and 3d Districts? Will the papers in those districts please put the ticket so that it can be filled out

We agree with the Union that it is high time the electors of that ticket were filled out, if any body has a notion of voting for it We cannot assert by the Bangor Democrat that more than three of the eight candidates for Electors at large placed at the Democratic head of the Argus Leader does not carry a full ticket with the exception of one name

DR R I COMPTON of Murfreesboro, N C has recovered $20 000 damages from the Weldon and Wilmington Railroad Company, for a prick sustained in a collision on the road in February last

A little girl daughter of Mr and Mrs Brackett, of Columbia, S C, was strangled to death by the rope of a swing becoming entangled around her neck

JOHN LINCOLN HOLMES Porter's Spirit of the Times, in quoting the sale of Lexington, says

It is possible that Lexington has been cheapened of by Mr Ten Broeck for $16 000 but the sporting experts declare that the sale implies price ever paid for any horse in the United States is not only the most remarkable but ridiculous Duroc cost here, Indiana cost over $25 000 Lodi sold to Ellis for $18 000—yes Riddle'h, the hunting Morgan stallion Eclipse sold for $14 000, and it was worth about twenty shillings Pon Boy, who was the most talked champion and ran against John Bascombe (a jolly Scotch) was sold for $5 000 Neither he nor Bascombe were worth *Blacks* Stark and Medley sold for $10,000 each They were originally worth a hundred dollars each if they were sound and the powder and shot that should kill them!

CALIFORNIA.—A friend (says the N Y Herald) writes from Santa Clara, California, under date of Sept 25 says

Politics, financial, agricultural and encouraging. Fremont and the Pacific Railroad for Vice President, seem to be in the ascendant There are some twenty five old line Democrats right around here, besides lots of Americans, all going it strong for Fremont Most of the foreigners (Spaniards &c) are right. Old Buck is supported by the Postmaster and two Aldermen. His dromedary line as rather slow for this State The Vigilants have hung and banished all the last and present Democrats The Vigilance Committee has been a terrible blow to that party but what wants it—the Committee is sustained almost unanimously by the people

PROVIDENTIAL ESCAPE Captain Nichols of the whaling ship Alfred Gibbs of New Bedford, writes home that his partner in the Bay of Islands, New Zealand, to land John Prior, a seaman, who fell from aloft to the deck, fracturing his jaw and injuring him internally His fall was broken by a dog which was lying upon deck, and no doubt his life was thus saved, as the dog was flattened like a board—Mr Prior was doing well at last accounts

ANOTHER IMPORTANT ACQUISITION TO FREMONT.—*New York*, Oct 8 The Courier to-day publishes a letter from Hon James A Hamilton, in response to Senator Fish's recent letter. Mr H explains his conviction that Mr Fillmore cannot be elected either by the people or the House of Representatives, and announces his intention of voting for Votes for Fremont

CONSECRATION The splendid and costly Catholic Church on York Street in this city, which has been in process of construction for a year and a half will be consecrated, we understand, on Sunday next The edifice is not yet entirely completed, though the ornamental work and painting are mostly done, and the pews are put in The stained glass windows are only a part of them received from New York There are 216 pews in the house, which will seat about 1200 persons We shall give a more full description hereafter

The consecration takes place before the finishing of the work on account of the approaching departure of Bishop Bacon (of Portland) for Europe

PENOBSCOT MUSICAL ASSOCIATION The Annual session of this Society for instruction and practice commences in this city, on Tuesday next, at Norombega Hall The session will continue four days, and the exercises will be under the direction of Prof George T Root, an able instructor Terms of admission for the session are $1,50 for gentlemen, and 50 cents for ladies Ladies who are members of choirs are admitted free

MORE GAME We are indebted to a modest friend for a piece of fine deer shot by himself He is one of a party who has been on a business excursion up river, and on the road managed to bring down a few deer and a little other game just to keep their hands in The party consisted of P H Lodgman, Capt E W Robinson, J F Hall and Submit E Perkins

WE HAVEN'T LET THE cat out of the bag, have we, Sam?

COMPANY FROLIC IN TOWN Friend Moses Longchin, of the Franklin House, this year raised a fine crop of corn on his farm at Hill Side Always ready and willing to see the young folks enjoy themselves, Mr M invited the young people in the neighborhood to a real jolly, old fashioned husking last evening, at his house, and a right good time they had, and a right good supper got up in the style the Franklin House is famous for His table was loaded with every thing, (as usual,) from the tender chicken to the tea cream on, and last, though not least may be mentioned that sure accompaniment to a genuine husking frolic the yellow, ochre, pumpkin pie In raising corn on Penobscot Co Moses is hard to beat

SINGULAR Last Friday afternoon, while a little daughter of Mr Moses Burbank, of Winterville was standing near the window a cartridge flew from the woods against the window, breaking the glass into a hundred pieces, and perched upon her shoulder Parents seldom have the woods so thus remote for the haunts of men, and the cause we leave to some one more skilled in the habits of the animal to determine

The Cause of Disunion a Last—Threats in Pennsylvania.

While it became obvious that the great battle of the Presidential campaign was to be fought on the question of slavery extension by force of arms, we sent a reporter to Virginia and correspondent to Pennsylvania to let us know how the land lay We have thus had, from time to time, the earliest intelligence of the disunion operation by which Gov Cobb and other Southern notabilities are leading and willing to bully the Pennsylvanians into the support of Buchanan But the other day a letter from Pennsylvania of this morning is by far the most important that we have received It is a country on fire—alternately convulsed with laughter and roused to indignation by the satirical style of Keitt and Brooks, but their performance is subsumed in intelligence by the side of that of the notorious Colonel John W Forney, Chairman of the Buchanan Safety Executive Committee, and confidant and right hand man of the democratic candidate for President

On Saturday before last John W Forney addressed a mass meeting at Reading, Pennsylvania He did not take any roundabout course He went to the point directly, he told the people of Reading—who are mostly going to vote for Fremont—that *if they didn't vote for Buchanan the party which he (Forney) represented would break up the Union!* He would be fair with them, they would have before them either to let Forney choose a President for them or to submit to the loss of their nationality One thing or the other Either Forney or death No other alternative

Perhaps some sturdy citizen of Reading objected to being forced to choose this dilemma Perhaps Forney saw, among the lowering faces and knit brows before him, signs hence that the Pennsylvanians would not submit to be treated like cattle For he felt it to be policy to add that the Pennsylvanians must think of making Kansas a free State They must give up the idea once and forever, and say no more about it, for the South would not submit to that any more than to the election of Fremont and if the North tried it on, they would go, will thrashed for it or no no *"The South"* he repeated *would wade knee deep in blood—would ride up blood up to their horses bellies sooner than not carry the point* In fine the only course for the Pennsylvanians to pursue if they care for the down safety and their national existence was to let the South make Kansas a slave State, by military coercion, and to vote for Mr Buchanan

We are no surprised to find that our correspondent reports a large increase of Fremont voters in consequence of the speech

GRAND BOAT RACE AT ST JOHN, N B We learn from a correspondent that a match has been made between the "Union Boat Club," (lately victorious over New York) and the "Indian Town Club," both of St John Our correspondent says the "Union Club, although has beaten the best oarsmen in the United States, is considered only third rate down there, where the Indiantown Club have worn the belt for three years, and thinks they are still able to wear it The race is to take place on the 3d of November—distance seven miles—purse $800 a side "Any amount of money is offered by the partisans of Indiantown and is now waiting covers, notwithstanding the Indiantown Club have not been in their boat this three years The attention of the New Yorkers is called to this affair.

PERSONAL NARRATIVE OF A PILGRIMAGE TO MEDINAH AND MECCAH By Richard F Burton, Lieut Bombay Army, with an introduction by Bayard Taylor With Map and two Illustrations First American edition New York G P Putnam, & Co 321 Broadway, 1856

This book is a novelty in the literature of Travels It describes from actual inspection and measurement, the Sacred Cities, the almost divine Tomb of Mohammed, the Holy of Holies of the Moslem Faith While other travelers have stood afar off and gleaned from reluctant and deceitful sources some scanty, incorrect and contradictory scraps of information concerning the Mohommedan shrines and worship, Lieut Burton, taking his life in his hand and assuming after months and even years of preparation, the character of a devout son of Islam, has not only seen with his own eyes what others have been content to peer with ears,—namely, the Moslem's inner life in a really Mohammedan country,' and travelled lands which no tourist had yet described or measured but has penetrated to the Tomb of the Prophet at Medinah and to the Kaabah at Meccah

As a "personal narrative," the account in detail of the ways and means and dangers of the journey from London to the very heart of Arabia is full of interest All future travelers in this direction will profit by Lieut Burton's experience, though few will venture to follow in his footsteps The descriptions of natural scenery, will serve to correct some peculiar notions of desert life But the great value of the book consists in the fresh, vivid and reliable view it gives of the present state of the Moslem Faith and ceremonial worship Here there can be no mistake For not such a writer as, not merely with the head or eye, but himself an orthodox Mohammedan of the straitest sect, obeying the Prophet's command to all true believers, once in their lives to make the pilgrimage to the Sacred city at Meccah—he and one man and did all that is enjoined or permitted to Believers To execute the extraordinary task he had imposed on himself, Lieut Burton attended at Alexandria, already versed in Arabic and Moslem usages, practiced his oppressed memory successfully during a stay of some weeks at the Cape, and afterwards on the Nile near Cairo,—fasting in Ramazan, talking theology, and, saying the prayers like a pious Mussulman in the character of a Dervish of Indian Dédes Passing this first ordeal unsuspected, he crossed the desert to Suez, and joining a party of Pilgrims from all the nations of Asia, he actually reached Medinah Now with pride eyes the Tomb of the Prophet penetrated to Meccah, visited there the Kaabah and remained in safety

Elegantly toned, and clear, Lieut Burton resembles our own Bayard Taylor who set in production carried on the American in print which is admirably suited to the style of G P Putnam & Co

The Rebellion in Northern Mexico—Critical state of Affairs.

NEW YORK, Oct 7

A Matamoras correspondent of the Herald furnishes a detailed account of the movements of Vidaurri in Northern Mexico Vidaurri demanded the removal of Commodore from the position of President Salinas, on the ground that he had violated the plan of Ayutla in endeavoring to render all the States absolutely central rule He also demanded the resignation of Juan Alvarez as President, pro tem, until the new constitution, then under discussion should be finally passed by Congress and promulgated Comonfort denying the position of Vidaurri, Vidaurri openly denounced his authority and threatened to resist his orders by force if necessary He has managed to raise the money, to obtain the Comanches in Nuevo Leon, and Coahuila, with out aid from the general government It was said that Vidaurri would invade and by filibusters from the United States, and that report had produced many people against him

Great excitement existed in Monterey, owing to this new complication of affairs Vidaurri had addressed the people in a proclamation declaring that a desolating civil war was at hand in Mexico, should Comonfort attempt to execute any of his decrees against Vidaurri The latter had, at latest dates, taken possession of Saltillo

GOV GRAHAM —The Boston Chronicle truly says

The latest reliable accounts from Kansas leave no doubt that Gov Geary (ak a the Border Ruffian side of the great controversy, and will be much more than Shannon or his predecessor It is no longer doubtful that he has given the notorious Col Titus command of a battalion of ruffian militia to rob and harass the settlers on pretence of defending them He has disbanded over the 100 free State men whom he caused to be arrested by the U S Dragoons for fighting in self defence to Donaldson and Coto, by whom they are plundered and starved On the other hand, not a man of the ruffian bands caught plundering the Kansas people and there seeking to exterminate them, has been arrested At Lane Buch dismissed to go about their business Not even an effort has been made to arrest the known murderers of Free State men

The Philadelphia Times says

"A most remarkable stampede into the Fremont ranks prevails in Wisconsin In Clark county, last fall, only seven Republican votes were cast A few days since, at an election for county judge, the Republican candidate was elected by a handsome majority over the Buchanan candidate! Speaking of this great change, the Milwaukie Sentinel says 'Some people, who have not watched the progress of things in the counties north and south of the Wisconsin river, will be astonished when they hear the Fremont thunder from there in November next.' But there is a still more marvellous change to record At the regular session of the Wisconsin Legislature last winter, the Buchanjers had a clear majority of ten in the Assembly Now, the Fremonters have a good working majority in both branches The present session is unadjourned one, there has been no election and the change has been wrought since the members by those influences which are winning and thrilling the hearts of the people throughout the land

We have authentic information to the effect that the Hon James Buchanan lately offered to the Hon. Millard Fillmore the Embassy to England as an inducement to withdraw from the contest Fillmore) present position as a Presidential candidate We learn that this proposal was mildly and decorously declined by the distinguished Fillmore, with the suggestion that perhaps after the 4th of October the Administration might be ready to receive a similar offer.—*Tribune*

STATE OF MAINE
BY THE GOVERNOR

A PROCLAMATION

FOR A DAY OF

Public Praise and Thanksgiving.

In accordance with a venerated usage established in the first settlement of the country by our virtuous and pious ancestors and subsequently continued by their descendants I do, with the advice and consent of the Council, appoint THURSDAY, the twentieth day of November next, as a day of Thanksgiving and Prayer, and recommend to the people of this State to assemble on that day in the usual places of public worship, and return their sincere and unfeigned thanks to Almighty God for the innumerable favors and blessings which He has bestowed upon them not only during the past year, but for the whole period of their existence

Let us thank him for His constant benevolence and loving kindness, for a bountiful harvest and rich increase of flocks and herds, making glad the hearts of the laborer and husbandman, that no fatal pestilence or wasting fever in any unusual degree has deprived us of our friends and relatives, but a pure and invigorating atmosphere has brought to us health and strength, that he has fostered the various pursuits of industry, and that the earth, the air and the sea have yielded to man the tribute which He has imposed upon them

Let us thank Him that our national Constitution, the foundation of our free institutions, and the rich legacy of our fathers has thus been preserved to us, that the American people have been endowed with a practical ability which has enabled them to found a great and powerful republic, holding high rank among the nations of the earth, and although in times our political horizon has experienced the rude and violent shock of conflicting opinions, reason has never failed to resume its sway over folly and prejudice, and peace and quiet have uniformly followed the deepest excitement

Let us promise the Lord, because He is merciful and just to allow to man, and plenteous in mercy and because His goodness to us is immeasurable and boundless He is truly our Maker and Father, and we, the work of His hands and His dependent children are bound to yield to him a ready and willing obedience warm and filial affection, that we may promote our own happiness and fulfil the purposes of our creation

Let us pray that God for redemption from sin, and that He has opened a way by which every sinner may enjoy a happy and glorious immortality in a eternal world, where virtue and good can walk be protected, and wickedness deprived of its power

And while we offer to Him the homage of grateful hearts for the abundance He has given to us, may we not be unmindful that every man is our brother and has a claim upon our sympathies, and that we should endeavor to relieve the wants of the poor, and the afflictions of the afflicted

Given at the Council Chamber in Augusta the second day of October, in the year of our Lord one thousand eight hundred and fifty six, and of the Independence of the United States of America the eighty first

California Steamers,
Carrying the United States Mail

5th and 20th of each Month.

Greatly Reduced Prices. 90 lbs. Baggage Free

Through Tickets, including transit of the Isthmus via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, including meals, on the Isthmus.

Transit made in *four hours, entirely by daylight,* thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

☞ *Tickets must be obtained by one of the Company's Agents here, or they will be examined by the Agent at Panama,* and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city C. L. BARTLETT, Agent,

PERFECT PAIN DESTROYER.—Dyer's Healing Embrocation.

The use of one bottle of Dyer's Healing Embrocation on Chandler Simon, of Providence, was entirely cured of sore lungs, from which he suffered severely.

CERTIFICATES are being daily received from persons of the highest respectability in favor of Dyer's Healing Embrocation.

DYER'S Healing Embrocation cures Rheumatism, Colds, Wounds, Bruises, Sprains, Piles, Sore Throat, Neuralgia, Burns, Cramps, Swellings, Ague, Toothache, Headache, and all external and internal pains.

EVERY Workshop and Factory should keep constantly supplied with Dyer's Healing Embrocation.

ARRESTED Heat, Bite of insects, &c., instantly by Dyer's Healing Embrocation.

GEO. McBRIDE, of New York, exclaims his double. Dyer's Healing Embrocation cured it.

HEADACHE and Sea Sickness cured by Dyer's Healing Embrocation.

INTERNALLY used, Dyer's Healing Embrocation is one of the greatest values, particularly in cases of Cramp, cholera morbus, dysentery, &c.

JOSEPH V. CARR, of the Providence Tribune, was severely attacked with cramp in his stomach, but found immediate relief in a single dose of Dyer's Healing Embrocation.

KNOWN to be true, that Dyer's Healing Embrocation is the best external and internal remedy ever discovered.

LEAVES no stain upon the dress or skin, equal in its effects, but clean in its application. Dyer's Healing Embrocation is the administration of all who have used it.

MOTHERS and Nurses should read carefully the testimony of Mrs. R. Wilmarth, which may be found in the pamphlet which accompanies Dyer's Healing Embrocation.

NO family should be without Dyer's Healing Embrocation.

ONE bottle of Dyer's Healing Embrocation will relieve a distressing cough.

PHILO received two applications of Dyer's Healing Embrocation.

QUESTION—What is the most effectual remedy for rheumatism, cuts, bruises, sprains, burns, another external and internal disease? Answer—Dyer's Healing Embrocation!

RHEUMATICS, one and all, use Dyer's Healing Embrocation, and be cured.

SPASMODIC affections, pain or soreness in the side, back, throat, chest or stomach, cured by Dyer's Healing Embrocation.

THE estimable value of Dyer's Healing Embrocation. Many of the most eminent physicians recommend this wonderful preparation with the most perfect confidence, but it only proves it to the people.

UNIMPORTANT—that every person should keep a constant supply of Dyer's Healing Embrocation by them. A single case often prevents the most fearful consequences.

VERY IMPORTANT—that every person should keep a constant supply of Dyer's Healing Embrocation by them. A single case often prevents the most fearful consequences.

WARRANT of the satisfaction to all who use Dyer's Healing Embrocation.

EXPERIENCE has taught Dr. Dyer that the great value which is attached to Dyer's Healing Embrocation.

YOU never need suffer pain if you can get it, so keep Dyer's Healing Embrocation on hand.

ZEALOUS in good works, he wishes constant imitators to relieve the sufferings of his fellow men. Such agree to recommend Dyer's Healing Embrocation: all suffering from internal or external pains.

THE GREATEST
MEDICAL DISCOVERY
Of the Age.

DR. KENNEDY, of Roxbury, has discovered a kind of our *common Indian weeds,* a remedy that cures

EVERY KIND OF HUMOR,
From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, both Chandler Simon. He has now in his possession over two hundred certificates of its virtues, all within twenty miles of Boston.

Two bottles are warranted to cure any running sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of boils.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure any eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most inveterate case of rheumatism.

Three to four bottles are warranted to cure the worst case of scrofula.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle; and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of Iodine, the vicinity of Boston. I know the effect of it in every case. It cures as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this beside that appear to me so surprising, first, that it grows in our pastures, in some places, quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1855, I peddled it, and sold about six bottles per day—in April, 1856, I sold over one thousand bottles per day—it

Some of the Wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is universal praise of it from all quarters.

In my own practice I always put it strictly for humors—but since the introduction as a general family medicine, great and wonderful virtues have often found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. By what process it will produce effects in all of that awful malady—I cannot tell, but few who have seen more of it than I have, know of several cases of Dropsy, all of which proved perfect cures.

Cancers and Tumors.

Permanently cured.

This medicine relieves pain and inflammation, which other remedies invariably excite, and can be taken with less trouble and expense to patients. This is fully the remedy that has saved thousands upon thousands from the hands of

Mercury or Quacks,

and from premature graves. In cases of, infection, the Compound Iodine is the only article worthy of the least confidence of the afflicted in performing

SAFE CURES.

It contains no narcotic, mercury, or other injurious drug, but is a purely VEGETABLE COMPOUND. It is very agreeable to the taste, creates no perceptible odor, and may be taken by persons of either sex, without hindrance from business or medical advice, as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them.

Delays are Dangerous.

With the medicine you can cure yourself, and in a few cases prevent all exposure.

Truth must and will prevail.

This medicine specifically and effectually cures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient to a perfect state of *Health and Purity.* And as a medicine which must benefit every body, from the simply delicate to the confirmed old debilitated invalid, no equal is to be found, in acting both as a *Constant Preventive* of any of the above ailments.

—FOR—

Purifying the Blood, eradicating all diseases arising from Errors of Mercury, exposure and impudence in life, chronic constitutional diseases arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Pimples on the Face, and all such Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to say that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous testimonials have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which, of course, differ according to the mode of preparation which each individual may adopt.

The medicines recommended in the present circular, have undergone considerable care in the preparation and the employments of different men from time to time, to overcome the objection to take up the extractive matter and, in consequence, are often frequently improperly made, and not sufficiently much impaired, if not rendered totally inert, by the injudicious and unskilful management of those unacquainted with pharmaceutical preparations. It is, therefore, of the highest consequence, and of importance to the public, and to the faculty, that there should be a standard preparation of uniform strength and possessing the merits as cannot be otherwise obtained. To effect this, and to obtain the evidence of the curative effects in a mild yet extractive form, I have made numerous experiments to obtain the utmost effects, and to extract the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiment, I have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain in the strength of the articles, they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Every table spoonfulls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon Diet drink, and one bottle of fully equals in strength one gallon of Syrup Sarsaparilla or decoction, as usually made.

THE GREATEST
MEDICAL DISCOVERY
Of the Age.

DR. KENNEDY, of Roxbury, has discovered a kind of our *common Indian weeds,* a remedy that cures

EVERY KIND OF HUMOR,
From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, both Chandler Simon. He has now in his possession over two hundred certificates of its virtues, all within twenty miles of Boston.

Two bottles are warranted to cure any running sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of boils.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure any eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most inveterate case of rheumatism.

Three to four bottles are warranted to cure the worst case of scrofula.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle; and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of Iodine, the vicinity of Boston. I know the effect of it in every case. It cures as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this beside that appear to me so surprising, first, that it grows in our pastures, in some places, quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1855, I peddled it, and sold about six bottles per day—in April, 1856, I sold over one thousand bottles per day—it

Some of the Wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is universal praise of it from all quarters.

In my own practice I always put it strictly for humors—but since the introduction as a general family medicine, great and wonderful virtues have often found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. By what process it will produce effects in all of that awful malady—I cannot tell, but few who have seen more of it than I have, know of several cases of Dropsy, all of which proved perfect cures.

Cancers and Tumors.

Permanently cured.

This medicine relieves pain and inflammation, which other remedies invariably excite, and can be taken with less trouble and expense to patients. This is fully the remedy that has saved thousands upon thousands from the hands of

Mercury or Quacks,

and from premature graves. In cases of, infection, the Compound Iodine is the only article worthy of the least confidence of the afflicted in performing

SAFE CURES.

It contains no narcotic, mercury, or other injurious drug, but is a purely VEGETABLE COMPOUND. It is very agreeable to the taste, creates no perceptible odor, and may be taken by persons of either sex, without hindrance from business or medical advice, as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them.

Delays are Dangerous.

With the medicine you can cure yourself, and in a few cases prevent all exposure.

Truth must and will prevail.

This medicine specifically and effectually cures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient to a perfect state of *Health and Purity.* And as a medicine which must benefit every body, from the simply delicate to the confirmed old debilitated invalid, no equal is to be found, in acting both as a *Constant Preventive* of any of the above ailments.
